

TESTIMONIES

Riverside Bowl has been able to identify a 95% cost saving for waste collection. Manager, Ben says, we were amazed to find this kind of saving and from a company that are environmentally friendly and recycle all waste they collect, this is fantastic!

The Travelling Cupcake loves the fact that with Grist, they not only make a considerable saving each year, they enjoy good old-fashioned service from a family business, and aren't tied into a contract. Business partner, Bev says, "Grist Environmental are a delight to work with. When I made the original enquiry, Grist responded really quickly. I was given a very competitive quote and on the day I requested, two brand new waste bins were delivered, all of this without any contractual tie in. I now have my waste collected weekly instead of fortnightly and I am saving £600 a year. What a superb service. I wish I could say similar of my previous supplier where the bins are still waiting to be collected a week later. Thank you Grist and Andover BID!"

Rachel Belle, owner of Andover Frames believes that we should all be conscious of how we dispose of our waste and working with an environmentally friendly waste provider is not only easy, but Grist have shown that they really care and support small businesses in the town. We are delighted to have made the change and that our packaging is being collected and recycled

7. Modern and well-maintained collection vehicles with camera monitoring
8. Waste bins branded with Andover BID working in partnership with Grist Environmental
9. A 24/7 telephone manned waste help desk

BACKGROUND & PURPOSE

Andover has many waste providers and until now there hadn't been uniformity or a collective approach to collecting waste in the town. Consequently, bags are often left scattered around, bins are sometimes ill placed, and waste is sometimes left for days, sometimes weeks making the town look dirty, unsightly and unloved.

Andover BID had promised its members that it would work towards a solution and that is what it has done. We are introducing a Waste Charter comprising of a competitive rate, regular collection, recyclable service including office recyclables, choice of different size bins/or bags, Reliability and a back-up if a problem arises.

The service is provided by a proven and long-established family owned and operated service who have partnered with Andover BID to offer a service to its members including retails, office sector, leisure, pubs, cafes, restaurants & clubs
